Contents—Continued

Table List

Table B-1: Schedule of Related Instruction, *page 4*

Figure List

Figure C-1: Example of a Partial Completion Letter, *page 5*

1. Purpose

The purpose of this pamphlet is to announce the US Army Engineer School Apprenticeship Program for the Trade of Photographer, Lithographic (DOT Code 972.382-014).

2. Applicability

This pamphlet applies to all elements of the Active Army. This pamphlet does not apply to Army National Guard and Army Reserve.

3. General

Policies and procedures for participation in the program are contained in AR 621-5. This pamphlet is designed to be used in conjunction with that regulation.

4. Apprenticeship Program Number and Occupational Skill Code

a. The following apprenticeship program number and occupational skill code are used to identify the US Army Engineer School apprenticeship program for the trade of Stripper, Photolithographic.

(1) Apprenticeship Program Number: 99901

(2) Occupational Skill Code: 18

b. The apprenticeship program number and occupational skill code must be entered in items 5 and 6 of DA Form 4409-R (Apprenticeship Application Form) to identify the program for which the soldier is making application.

5. Eligibility for Participation in the Program

Soldiers holding as primary or secondary the MOS indicated below and serving in that MOS may participate in the program:

MOS: 83E Photo and Layout Specialist.

6. The Photographer, Lithographic Apprenticeship Program

This is a 7500 hour program which leads to certification as journeyman in the trade of Photographer, Lithographic. Participation in the program is voluntary, and no membership in labor unions or professional organizations is required. The work process schedule and schedule of related instruction for the trade are attached (app A and B). The purpose of the work process schedule and the schedule of related instruction are as indicated below:

a. The work process schedule reflects categories of work experience required by soldier-apprentices to qualify as journeyman and hours of work experience required in each category.

b. The schedule of related instruction identifies courses which may be taken by soldier-apprentices to satisfy the 504 hours of related instruction required for completion of the program.

7. Enrollment in the Program

Soldiers may enroll in the program by contacting their installation education services officers (ESO's) who will explain requirements of the program and assist in the preparation of the Apprenticeship Application Form (DA Form 4409-R).

8. Apprentice Log Forms

Apprentice log forms and instructions on use of forms will be issued to soldiers by installation ESO's at the time of registration in the program. soldier-apprentices will be required to annotate their work experience on log sheets on a daily basis. Log and instruction sheets will be maintained by soldiers in a three-ring binder. Log entries must be verified by the soldier-apprentice's immediate supervisor on a weekly basis.

9. Credit for Previous Experience

a. Newly enrolled soldier-apprentices who have partially completed an approved Federal or State registered civilian apprenticeship in the trade of Photographer, Lithographic or a related trade will, upon presentation of documentation, be awarded credit for all experience related to categories of work contained in the work process schedule at appendix A.

b. Up to 3750 hours of credit for previous military work experience may be awarded upon presentation of authenticated documentation of satisfactory performance. Such experience must be directly related to the occupation in which the apprenticeship is being performed. Statements from previous supervisors or other such documentation which certify category of work, number of hours by category, and quality of performance will be submitted by soldier-apprentices to their installation ESO's for consideration. ESO's will forward these documents to the Commandant, US Army Engineer School, ATTN: ATZA-TDI, Fort Belvoir, VA 22060 for final determination.

10. Related Instruction Credit for Previous Military and Civilian Education

Credit for previous military and civilian education may be awarded to satisfy related instruction requirements by presenting certificates of course completion or other such documentation from official military records. For courses which are not listed in Appendix B of this pamphlet, course descriptions and the actual number of class hours for each

course should also be included. The installation ESO will submit this information to the program sponsor, which will determine the amount of credit to be awarded. No credit will be awarded for courses which were taken by the soldier-apprentice while a student in high school, vocational school, or college prior to entry into the Army.

11. Completion of the Program

Upon successful completion of the program, a Certificate of Completion of Apprenticeship will be awarded by the US Department of Labor. While the award of a Certificate of Completion of Apprenticeship will not guarantee a job, it will certify that journeyman status has been attained, and should enable completers of the program to be more competitive with civilians in the trade.

12. Partial Completers

Soldiers leaving the service prior to completion of the program will receive documented credit for that portion of the program which they did complete. This documentation may be presented for satisfaction of requirements of civilian apprenticeship programs in the trade of Photographer, Lithographic or a related trade.

Appendix A

Work Process Schedule for the Trade of Photographer, Lithographic

	<i>Hours</i>
A. Health and Safety Standards	250
B. Means and Methods of Controlling Light	250
Lens, diaphragm, light source	
C. Photographic Developing Processes	1000
Manual developing, automatic film processor, chemical films	
E. Line Photography for Lithography	2500
Mounts original, focus lens, sets scale of reproduction, adjusts light source, mounts and exposes film	
F. Halftone Photography for the Lithography	1250
Halftone screens, halftone ranges	
G. Electronic Accessory Devices	500
Densitometer, light integrator	
H. Contact Procedures	1000
Registration, duplicating film	
I. Maintenance	250
Total	7500

Appendix B

Schedule of Related Instruction for the Trade of Photographer, Lithographic (DOT CODE 972-381-022)

A total of 504 hours of related instruction is required in order to complete this program. Completion of any one or combination of the below listed courses which equals 504 hours of related instruction or more may be taken to satisfy this requirement. Credit for courses not listed below may be awarded upon presentation of authenticated documentation of satisfactory completion. A synopsis for courses not listed below will be forwarded by ESO's to The US Army Engineer School, ATTN: ATZA-TDI, Fort Belvoir, VA 22060, for final determination.

Table B-1
Schedule of Related Instruction

	Course Number	Course Title	School	Residence	Non- Residence	Hours Credit
A.	740-306	Basic Photolithographic Processes	Defense Mapping School Ft. Belvoir, VA 22060	X		446
B.	740-303	Basic Offset Printing	Defense Mapping School	X		282
C.	690-620	Reproduction Equipment Repair	Defense Mapping School	X		480
D.	10452-D	Lithographer 3 + 2	NAVEDTRA, Ellyson, Pensacola, FL 32509		X	84
E.	10454-B	Lithographer 1 + C	NAVEDTRA, Ellyson, Pensacola, FL 32509		X	36
F.	CDC- 70350	Reprographic Specialist	USAF Extension Course, Gunter AFS, AL 36118		X	117

Appendix C

Example of a Partial Completion Letter

A partial completion letter example follows.

(Enter Office Symbol)

(Enter Date)

TO WHOM IT MAY CONCERN:

This is to certify that _____ was enrolled in the Army
(Name)

Apprenticeship Program for _____
(Name of Occupational Skill Area)

(Registration Number) During this period _____ to _____. During that period
(Date) (Date)
he successfully completed the following hours:

<i>Work Process</i>	<i>Hours</i>
A	_____
B	_____
_____	_____
_____	_____

Army Apprentice Programs are registered with the US Department of Labor and the fact that this individual did participate can be verified with the Bureau of Apprenticeship and Training, Patrick Henry Building, Washington, DC 20213, or by contacting Headquarters, TRADOC, ATTN: ATPL-AGE, Fort Monroe, VA, 23651.

Sincerely,

ESO's SIGNATURE BLOCK
